Economist with a B.A. in Economics & Management (Data Analysis). Hands-on experience in budget planning and control, product costing, profitability analysis, and monthly management reporting. Advanced user of ERP/BI systems (SAP, Priority, Salesforce CRM, QlikView, SAP BusinessObjects) and Excel (Power Query/Power Pivot/Pivots). A strong cross-functional collaborator who operates well under pressure and communicates clearly in Hebrew and English.

EXPERIENCE:

Costing Economist (Temporary) - ICL Fertilizers (ICL Haifa) | Haifa, Israel | May 2025 - June 2026

- Budget control & variance analysis: Managed cost-center budgets and GL accounts; tracked plan vs. actuals; collaborated with Production, Procurement, and Logistics; prepared monthly / quarterly / annual cost forecasts to support decisions.
- Performance reporting: Built recurring management reports (SAP/CRM/advanced Excel) on operations, inventory & consignment, and profitability - including product/customer-level costing.
- Rolling forecast & updates: Maintained a quarterly rolling forecast; monitored budget utilization; issued targeted variance reports and corrective recommendations to management.
- KPIs & process improvement: Developed and maintained KPIs for production/material/transport costs, inventory and consignment; partnered cross-functionally to optimize costing and streamline operational workflows.

Economist & Analyst - Shchakim - Financial Solutions | Tel Aviv, Israel | Nov 2021 - Mar 2025

- Processed and analyzed ERP/BI data (Priority, SAP, QlikView) to build product costing, profitability analyses, and management control reports; identified trends and improved work processes.
- Monitored monthly sales using operational KPIs by profit center; led pricing feasibility checks for bids/tenders; scoped workflow changes to enhance sales execution.
- Visualized and presented insights with PowerPoint, Power BI, and Excel; built sales KPIs in Salesforce CRM; analyzed monthly revenues/expenses to support data-driven strategy and risk assessment.
- Designed and implemented control mechanisms and performance KPIs; established and refined processes to raise organizational efficiency and effectiveness.
